CAREER OBJECTIVE

To utilize my technical skills to develop user-friendly and efficient web application that are visually attractive as well as easy to navigate in order to meet all the requirement of the user.

EXPERIENCE

Asst. System Engineer

Tata Consultancy Services Ltd.

2020 – Present

Bangalore, IN

- Implemented multiple framework upgrades which involves analysing the requirements, listing out the changes and implementing it to the existing code while eliminating errors.
- Handled the Data migration process from Oracle to Postgres which involves recreating data and its attributes using PostgreSQL .
- Carried out thorough testing of application UI and writing test cases to streamline the development of application while predicting the possibilities of errors.
- Handled bugs and errors reported during unit testing and regression testing by using Javascript, PostgreSQL and Core Java skills.
- Handled code changes in existing Javascript and Java files for the application as per the user requirements in existing workflow. This involves making additional changes for any elements or components, pages and their flow.
- Handled application enhancement and streamlined the development responsible for improvement of application.
